ROOFTOP

NORTH 14TH STREET

WYTHE AVENUE

At the rooftop of **29 Wythe Avenue** sits a 24,562 square foot programmable rooftop available for lease. The space is partially enclosed with sweeping views across North Brooklyn and is purpose-built for activation. Ownership is seeking a best-in-class operator to bring it to its full potential.

29 Wythe Avenue is a new four-story mixed-use development on Wythe Avenue between North 13th and North 14th Streets in North Williamsburg. Sky Zone Trampoline Park anchors the lower level, retail occupies the ground floor, and Club Studio Fitness fills the third floor. The result is a steady flow of visitors seven days a week. The property sits midway between the East River waterfront and McCarren Park at the heart of Brooklyn's most active retail and lifestyle corridor.

For operators looking to establish themselves in one of Brooklyn's most visited neighborhoods, this is a rare chance to program a rooftop above a true destination building. The space will be delivered ready to be activated as a restaurant, bar, event venue, wellness concept, programable use, or something entirely its own, surrounded by some of the borough's most celebrated food, beverage, and lifestyle establishments.
